

# BELGHOUL

# ABD EL KAER

PROGRAMMER

## PROFESSIONAL SUMMARY

Motivated Full-Stack Developer with expertise in designing responsive mobile/web applications and building resilient backend architectures. Driven by a strong passion for refactoring legacy systems, optimizing application performance, and enhancing software security. Fast learner actively seeking complex technical challenges to build scalable, high-impact software solutions.

## EDUCATION

Bachelor of Computer Science (2nd Year)

Ahmed Zabana University – Relizane, Algeria 2024 – Present

- Coursework focus: Data Structures, Algorithms, Object-Oriented Programming, and Software Engineering.

## PROJECTS & PRACTICAL EXPERIENCE

**Full-Stack Mobile Application** 2025 – Present

Full-Stack Mobile Application Ecosystem ("Infinity Pizza")

- Designed and engineered a complete mobile application suite
- Implemented real-time features including live order monitoring,
- Applied UI/UX principles to craft modern, user-friendly interfaces tailored for end-users.

**System Refactoring & Optimization** Ongoing

| Independent Software Projects Ongoing

- Analyzed backend logic and application workflows to identify memory bottlenecks and security vulnerabilities.

## CONTACT INFORMATION
